Short description

My name is Gunnar, I'm from Iceland but currently living in Copenhagen, Denmark. I studied Multimedia Design but I consider myself a self-taught designer and aspiring front-end developer. I'm constantly learning and looking for new experiences to grow both as a professional and as a human being. I love to see the big picture but at the same time build systems that allow exploration and flexibility.

Experience

Design lead

Copyright Agent A/S

2021 - Current
